## PVC S6704

### Description:

**PVC S 67-04** is a polyvinyl chloride grade, manufactured by a suspension polymerisation process. It is a medium porous polymer with a consistent quality.

### Applications :

**PVC S 67-04** is a general purpose resin for rigid applications. Primarily it is intended for use in both pressure and non-pressure

PROPERTIES	ISO REFERENCE	VALUE
K-value	ISO 1628-2	67
Viscosity index	ISO 174	112
Bulk density	ISO 60	570 g/l
Sieve analysis		
> 63 microns	ISO 4610	≥ 98 %
> 250 microns	ISO 4610	≤ 3 %
Volatiles	LPM 5056	≤ 0,3 %
Porosity	LPM 4424	21%
